

Tractatus coislinianus¹

- The politics of the reduced mass for two Interacting bodies

The reduced mass is always less than or equal to the mass of each body²:

$$m_{\text{red}} \leq m_1, \quad m_{\text{red}} \leq m_2$$

Due to recent developments in the metamorphosis of Belly Inflation it is no longer possible to discern the *flâneur* from The Man in the Crowd. Although Interacting Bodies reexamine the possibilities inherent in the metamorphosis. As *robinsonners*, we fully understand how the stress-curve might construct new imagos.

Is it really possible to understand the stress-curve?³

“Let us look one another in the face. We are *robinsonners* – we know well enough how much out of the way we live”.⁴ The time has come to *understate* the motto which drives, unknowingly, the convolution processes of naturally-occurring ELF/VLF:

*Increscunt animi, virescit volnere virtus.*⁵

As you know, Ladies and Gentlemen, The Lab seeks eternal transgression without the need of a deity or other supernatural stimulants. The World is a Hell, populated by demons and tortured souls, unbeknownst of their own suffering. And The Lab is their fucking cure!⁶

$$X_k = \sum_{n=0}^{N-1} x_n e^{-i2\pi k \frac{n}{N}} \quad k = 0, \dots, N - 1.$$

“Accurate scholarship can/ Unearth the whole offence/ From Luther until now/ That has driven a culture mad,/ Find what occurred in Linz,/ What huge imago made/ A psychopathic god:/ I and the public know/ What all schoolchildren learn,/ Those to whom evil is done/ Do evil in return.”⁷

Ladies and Gentlemen: Sync is complete. Space has begun.⁸

1 At the advent of **Lab#1**, the lost writings of Aristotle appeared, as in a crystalline dream. Monks have tried to deride and ridicule the existence of the *Tractatus* but history has shown that comedy is here to stay.

2 For typical applications in nuclear physics, where one particle's mass is much larger than the other the reduced mass can be approximated as the smaller mass of the system. The limit of the reduced mass formula as one mass goes to infinity is the smaller mass, thus this approximation is used to ease calculations, especially when the larger particles exact mass is not known.

4 Nietzsche, Friedrich: *The Anti-Christ*, 1888. Rewritten.

5 *The spirit grows, strength is restored by wounding.*

6 Being an ambulating aural laboratory dedicated to positive thinking, CT[Lab] exists at the cross-sectional curve between the historical Vanguard and the Neolithical era. The Lab is an Anthropomorphic tribe composed of multiple bands of lineage. The last body of evidence excavated near the banks of Nidelva provided evidence of a society with a minimum of 2562 FFT-bands.

8 In order to provide proper durability, databases need to use some form of sync in order to make sure the information written has made it to Non-volatile storage rather than just being stored in a memory-based write cache that would be lost if power failed.
